

WAR REVENUE
REDUCTION BILLThe Senate Passes it Without
Division.

TIGHT OVER AMENDMENTS.

Impossible to Get Tax on Bank
Checks Reduced—Aldrich and
Jones Have a Set-to.

Washington, Feb. 6.—Two important measures were disposed of by the Senate today, the military academy appropriation bill and the war revenue reduction bill. The former was passed by a vote of 75 to 15, and the latter by a vote of 75 to 15.

An amendment was agreed to providing that the tax on new bank checks be computed from the time the institution begins business.

Mr. Chilton offered an amendment reducing the tax on bank checks from 2 cents to 1 cent, but it was defeated, 18 to 42.

An amendment offered by Mr. McCann of Maryland, was agreed to, providing that the internal revenue commissioner should place the stamps provided for in the bill on sale at the postoffice of the country.

Mr. Jones of Arkansas moved to eliminate from the bill the proposed exemption from tax on telegraph and telephone messages. He gave notice that if the motion was agreed to he would offer an amendment to tax both telegraph and telephone companies on their gross business, so as to compel them to pay the tax. The motion was rejected, 15 to 35.

Mr. Morgan of Alabama, offered as an amendment to the measure his provision for an income tax, beginning on the 1st of next July and running for twenty years. The amendment placed a tax of 2 per cent upon all incomes above \$4,000 a year. The amendment also provided for a substitute for the above bill for the revenue law now in operation. Mr. Morgan maintained that it was the duty of Congress to repeal the war tax, inasmuch as the war has since ended. The amendment was voted down, 21 to 28. The vote was strictly on party lines. The bill was then passed without division.

“THE ARMY.”

Gen. Ludlow Tells What It Is and What It Has Been Doing.

New York, Feb. 7.—Gen. Ludlow, late military governor of Havana, was the principal speaker at the annual banquet of the Crocker Board of Trade, Waldorf-Astoria. The general in a humorous speech, responded to the toast, “The Army,” and received an ovation.

Other speakers were Congressman Wm. A. Smith, of Michigan; J. Crawford Smith, Frank W. Mack, James B. Dill and R. S. Gouldsbury.

Edward F. Atkinson, the newly elected president, was toastmaster. About 200 members and guests took part.

Gen. Ludlow in his address said: “The army of late has not been in the habit of meeting the peaceful citizens of this country. It has been otherwise engaged. I hope that will be changed in the near future. The march of our army has been somewhat remote and isolated from the march of trade and commerce. The public in this country, unlike other countries, knows very little about the army. The army has always been engaged as the pioneer of trade and commerce on the extreme edge of civilization.

“If you knew us, you would love us. There is no more to be said of the public, of commerce and of civilization than the army and its officers. I know it will appeal to you if I say that the army is not a bull in a crockery shop. It is not always for destruction; it is for peace as well as for war, and must have it even if it has got to fight for it.”

REACTIONARY INFLUENCES.

They Are Said to be Supreme Around the Chinese Imperial Throne.

Vancouver, Feb. 7.—According to advices brought by the steamer Empress of China, conservative and re-actionary influences are making themselves felt more and more in the neighborhood of the Chinese throne at Hsien and the only hope of giving effect to liberal councils is to induce their majesties to move either to Wu Chang or Nan King, where they would be in direct contact with the Yang Tse Valley. The name of another council is mentioned as having acquired dominant influence in the empress dowager's entourage.

The two councils now said to be supreme are Li Tsin and Li Tien Yuan. They have formed a combination of the most powerful viceroys and governors of China to drive out all foreigners, especially Russians. This movement is said to have been accelerated by the instructions issued by Prince Ching to Chinese troops in Chi Li in accordance with his promise to Field Marshal von Waldersee, directing the Chinese troops to abstain from all movements against foreigners or peaceful Chinese.

Sale of Horse Meat Prohibited.

New York, Feb. 7.—The board of health by a unanimous vote has prohibited the future slaughter of horses in this city and the sale of meat from all such animals slaughtered elsewhere.

FOOD BUILDS TEETH.

Boy of 6 Lacks Teeth Until Fed Properly.

A little chap 6 years old the son of W. Wells of Ravenswood, Ill., had, up to a short time ago, cut very few teeth. Naturally the imperfect mastication of food caused indigestion and a poorly nourished system. When I first saw the lad,” says Rev. W. Osborne Stranahan of 307 N. Winchester Ave., Ravenswood, he was wan and pale, greatly emaciated, with impoverished blood, and lacking all the essentials which go to make up robust strength and vigor.

“Many remedies and different foods had been tried, but none seemed to meet his need. I knew something of the value of Grape-Nuts food, and recommended its use. The first trial convinced the parents of one thing—at least they had found a food the boy really liked. He emptied his dish and calls for more,” the mother said.

“Astounding results followed its use, almost immediately; flesh was rapidly put on, the face from being pallid and thin, began to fill out, the cheeks were plump and rosy. The body, properly nourished, began its work of rebuilding the system. The most wonderful thing of all, the Grape-Nuts food seemed to contain the necessary elements for the formation of bone tissue, and presently the tardy teeth began to prick through.

“Today the boy is strong and hearty, in perfect health, with a full set of teeth rapidly maturing. The Grape-Nuts food alone has brought about this marvelous result.”

ULTIMATUM OF
PROHIBITIONISTSAddress to Mayor and Council of
Winfield, Kansas.

SALOONS MUST BE CLOSED.

Will Take the Law Into Their Own
Hands—Northwestern Christian
Advocate on Mrs. Nation.

Chicago, Feb. 7.—A special to the Record from Arkansas City, Kansas, says:

The prohibitionists of Winfield have formulated an address to the mayor and city council which says:

“We, the citizens who love law and order, know that our town is being afflicted by open saloons and other vice shops which are running daily in open violation to our prohibition laws. We beg you to at once take measures to suppress this violation of law. This is our ultimatum. We do, with a full sense of what we are saying, solemnly pledge if we are not heard in this way, we will be in another. (Signed.)

“Committee for Law and Order.”

No action was taken by the officers of Winfield and it is believed the prohibitionists will take the law in their own hands. The trouble began in Arkansas City, Kansas, yesterday, when a committee of three men the military called upon Mayor Hess and presented a written request asking him to use his power to close the joints and relieve the necessity of a saloon riot by the citizens.

COMMENT ON MRS. NATION'S
CRUSADE.

Chicago, Feb. 7.—In its current issue the Northwestern Christian Advocate, the leading publication of the Methodist Episcopal church, west of New York, comments on Mrs. Carrie Nation's crusade of force against saloons in Kansas. It says in part:

“We do not know how wise the lady is, but we hope she is wise. She has no more legal right to ‘smash’ saloon windows in Chicago than she has to hurl a stone through Bishop Morley's front door or window. At the same time we agree with her in her aim, which is to bring about a higher law, but it is legal according to the lower law, in whose name Mrs. Nation is likely to be arrested if she makes trouble in the Chicago streets. When people prove that they can make speeches and take a basket of well assorted stones and throw all of them accurately—do all this after reaching middle life, yet having had the grace of quiet in previous years, we then respect and therefore must refrain from giving advice to them. Some innocent people may see that which the wise in this world's wisdom see not. We do not know, but we wait and see. We hope that the lady from Kansas confounds the wisdom of every city official in Chicago.”

ON A BURNING SHIP.

Terrible Experiences for Sixteen
Days of the Pyrenees' Crew.

San Francisco, Feb. 7.—Sixteen days on a burning ship in mid-ocean with the hot decks warped and threatening momentarily to blow up, is the story brought to port by Capt. Robert Bryce and the crew of 29 of the big four-masted steel ship Pyrenees. They were picked up at Tahiti by the steamer Australia and were on their way to England. The Pyrenees sailed from Tacoma on October 14, for Leith, with a cargo of 3,750 tons of wheat and barley. On Nov. 4 when the vessel was on the equator fire was discovered in the hold. The hatches were battened down and the ship headed for Pitcairn island. Here it was too rough to land. Gov. McCoy, of Pitcairn, and the Pyrenees, which then made for Manga Reva, 300 miles away. Here the ship was beached and the crew landed. The fire then broke out and the vessel was destroyed. The men were carried on a trading schooner to Tahiti, where they took the Australia for this port.

Gen. Corbin May Command Army.

New York, Feb. 7.—A special to the Herald from Washington, says:

Adj.-Gen. Corbin is in the list of men who may command the army with the rank of lieutenant-general. Upon the retirement of Maj.-Gen. Brooke he will become the ranking major-general, and while the question of his appointment cannot, of course, be considered until after the retirement of Lieut.-Gen. Miles, the impression is gaining ground in war department circles that this event will occur on August 8 next, when Gen. Miles will reach the age of 62.

Friends of Gen. Corbin say he has no wish to succeed Miles, but rather thinks the appointment should go to Maj.-Gen. E. S. Otis as a reward for his services in the Philippines. But upon the retirement of Gen. Otis, on March 25, 1902, Gen. Corbin will be ranked by only one officer—Maj.-Gen. Brooke, who will retire on July 21, 1902.

Gen. Corbin will not retire until September 15, 1906, and should not the President appoint him until Gen. Brooke's retirement he would have more than four years to serve in command of the army.

If Gen. Corbin reaches the high honor his friends bespeak for him, neither Maj.-Gen. Young nor Maj.-Gen. Chaffee would be able to reach the highest military grade.

WILLIAM THANKS EDWARD.

Can Wear a Uniform Similar to
that Worn by Wellington.

London, Feb. 7.—The court circular announces that Emperor William in thanking King Edward for conferring upon him the rank of field marshal, said the honor enabled him to wear a uniform similar to that worn by the Duke of Wellington and Earl Roberts, a compliment that would be highly appreciated in the German army.

Protection for German Agriculture

Berlin, Feb. 7.—At a session of the German agricultural council, Count von Buelow, the imperial chancellor, made a strong speech regarding the vital importance of protecting and fostering German agriculture.

He declared that he would look after agriculture, not only as a duty of the chancellor, but as a personal matter and with all his heart.

“To this I pledge my name,” he exclaimed, “a name which has been cultivated German soil for centuries.”

CHRISTIAN SCIENTISTS APPEAL.

They Make an Appeal to the New
York Legislature.

New York, Feb. 7.—Five hundred Christian Scientists made a second appeal to the assembly committee on public health to report the Bell bill adversely.

In the course of the hearing a statement was read by Dr. Wm. Fleet, of New York. He said Dr. Fleet, of New York. He said Dr. Fleet, of New York. He said Dr. Fleet, of New York.

DYSPEPSIA.

Few diseases inflict upon their victims greater suffering than does dyspepsia. If you have dyspepsia or indigestion in any form do not trust your stomach with drugs, use Duffy's Pure Malt Whiskey as directed, it will cure any form of indigestion and will restore the stomach to its normal condition.

Duffy Malt Whiskey Co.
Dear Sirs:—I have already used two bottles of your Duffy's Pure Malt Whiskey. I feel better than I have for many months. I have been troubled with a burning sensation after meals for a long time, but was completely cured by using your Duffy's Pure Malt Whiskey.

Yours truly,
BAC T. GREENWOOD.

The only Whiskey taxed by the Government as a medicine. This is a guarantee. Be sure you get the genuine. Refuse imitations. All druggists and grocers sell it. Read the bottle. Write for free medical booklet.

DUFFY MALT WHISKEY CO., Rochester, N. Y.

Nelden-Judson Drug Co., Salt Lake City, Wholesale Agents.

Savior really performed the miracles that the scriptures ascribe to him. They are only meant as illustrations of what faith might accomplish if strongly enough.

“The Bible account of His so-called miracles is really a series of parables. Christian Scientists who say they can cure smallpox by praying and that this is what Christ did, are sacrilegious.”

Mrs. Laura Lathrop, of New York, who is one of the best known Christian Scientists, said:

“There are miracles happening every day if you will only look about you. I know of a case where a man was entirely bald. By faith and prayer his hair was restored. Nothing is impossible to Christian Scientists.”

Steel and Iron Market.

New York, Feb. 7.—The Iron Age

says:

The iron and steel market is quiet, as it is apt to be at this season of the year. Aside from one sale of 60,000 tons of southern foundry iron to a pipe interest, reported from Chicago, little appears to have been done and buyers generally are purchasing from hand-to-mouth. Inasmuch as the steel plant in western Pennsylvania has purchased 10,000 tons and the market is steady. In eastern Pennsylvania there were sales of basic pig to the extent of 8,000 to 10,000 tons.

The rail trade has been rather quiet. Spot steel continues to command a small premium, the heavy producers being behind on deliveries. A consolidation among the large companies would be particularly powerful in this branch and would probably continue the steel selling in the policy of the billet pool, with its tendency to force outsiders to erect their own open hearth steel plants.

Good reports come from various trade centers relative to the volume of business in the metal market. At one time there was some irregularity in prices of steel bars in certain western districts, but the market is steadier there now. The tonnage seems to be good.

Sheets are very active in all sections of the country.

Shot His Sweetheart.

Oakland, Cal., Feb. 7.—In a frenzy of rage because she had broken the engagement, Bert Henderson, an employee of the telephone company in San Francisco, shot and seriously wounded his fiancée, Miss Fannie O'Neill late last night, when she turned the pistol on herself, fired a bullet into his own brain and died almost instantly.

Henry Green, Confessed Murderer.

Sacramento, Cal., Feb. 7.—Chief of Police Sullivan has received a telegram from District Attorney George Cummings, of Harrison, Mich., stating that he would send an officer at once to pick up Henry Green, who, on Christmas night, walked into the Sacramento police station and confessed to the murder of Owen Pevey, in Michigan, 25 years ago. Green retracted his confession the next day, but has been held in custody ever since.

Mrs. Maude Booth Returns Home.

New York, Feb. 7.—Mrs. Maude Booth, wife of Commander Ballington Booth, of the Volunteers of America, has returned to her home at Montclair, N. J., after an extended trip through the West. Commander Booth will start next week for California.

PORTUGAL AND ENGLAND.

King Charles' Stay in London May
Have Important Effect.

London, Feb. 7.—The Daily Mail has the following from its Lisbon correspondent:

The king of Portugal is staying a few days longer in London than he originally intended, at the express wish of King Edward. His visit is likely to have important developments. The Portuguese section of the Delagoa Bay railway is now in British hands, but this is merely a temporary arrangement between the two governments.

Commenting upon the situation at Delagoa bay, and the evidence that the Boers have penetrated twenty-three miles into Portuguese territory, the Daily Mail expresses a belief that British troops are now guarding the Delagoa Bay railway down to the sea, and that it will be possible to send British troops by the Delagoa route. It urges, therefore, that Great Britain gains by the Boer movement.

SPREAD OF YELLOW FEVER.

Specific Cause, Declares Dr. Reed,
Continues to be Unknown.

Havana, Feb. 7.—An interesting paper was read before the Pan-American Medical college by Dr. Reed on the propagation of yellow fever by mosquitoes. The specific cause of yellow fever still continued unknown, he said, but the work of the yellow fever commission at Querobos had conclusively proven in his opinion, that the mosquito to serve as an intermediary in conveying the disease, the spread of which was due to this medium alone. The commission had concluded, therefore, Dr. Reed added, that the distinction of a pronounced case of yellow fever, but useless owing to the impossibility of contagion from such a source.

THE TWO COUNCILS.

Washington, Feb. 6.—Senator Hale today submitted to the Senate a number of communications from the secretary of the navy concerning naval affairs. One of these is a list showing the names of vessels purchased for the navy during the war with Spain, together with the prices paid, and also a list of such vessels which have been sold, together with the prices received for them. The latter includes the following:

Vessel	Purchase Price, Sold For.
Niagara	\$200,000 \$75,000
Badger	307,000 125,000
Resolute	475,000 260,000
Vulcan	350,000 175,750
Cassius	160,000 160,000
Scipio	85,769 80,125
Hector	200,000 65,150

No MORE GRAY HAIRS!

AN INDEMNITY
PROPOSITION.Plan to Have China Pay Powers
in Distant Future.

TAKE UP AND REDEEM BONDS

Could Pay \$20,000,000 Annually—
Celestials Playing a Very Smooth
Diplomatic Game.

London, Feb. 7.—Dr. Morrison, writing to the Times from Peking Tuesday, says:

“It is estimated that China will be able to pay without serious burden £4,000,000 annually for a service loan and £80,000,000 for indemnity. The proposition which meets with most acceptance is that she should take up bonds and then determine the portion of indemnity to be allotted to each power, and that she should redeem the bonds within, say, forty-five years.

“With reference to today's conference, it should be said that the Chinese had previously obtained a copy of the ministers' indictment against the Chinese officials, and being aware of the divergent views of the powers regarding the severity of the punishments, Prince Ching and Li Hung Chang were well prepared with answers and evasions.

“Thus the conference was disappointing. M. Pichon (French minister), who was a most vigorous spokesman, extorted an admission that correspondence signed ‘Ching’ and sent to the British legation during the siege was largely written by Prince Tuan and Chiao.”

The Shanghai correspondent of the Times, referring to the imperial decree instructing the counselors of the viceroys to compare the Chinese and western systems with a view of initiating reforms, says he fears the main object of the decree is to throw the eyes of foreigners to obtain easier terms.

VICKERS-MAXIM-CRAMP.

Negotiations for Amalgamation of
Interests Broken Off.

New York, Feb. 7.—A special to the Times from Philadelphia says:

It is currently reported that all negotiations between the Vicker Brothers-Maxim firm of England and the Cramp Shipbuilding company, of this city, looking to the practical amalgamation of the companies have been broken off. It was understood that all details for the carrying out of a plan were to have been perfected at a meeting of the Cramp company, which was said to have been scheduled for today, and at which the Vickers Brothers-Maxim representatives were to be present. Now that the deal has been declared off the matter is not likely to be mentioned at this meeting.

Japan's Great Deficit.

Yokohama, Jan. 29, via Victoria, B. C., Feb. 7.—The Japanese financial minister has issued a statement showing an estimated national deficit of \$9,000,000 yen.

Denver Police Suspended.

Denver, Colo., Feb. 7.—The fire and police board has suspended Arthur Marlyn, captain of police, and Walter Carberry, George Sanders and T. E. McIluff, detectives, and Policeman John Shack pending a public investigation of the charges of receiving bribes from keepers of gambling houses, houses of ill fame and other criminals. The investigation will occur Friday.

Naval Arch for Battery Park.

New York, Feb. 7.—The approval of the city officials has been given Battery Park for a site for a naval arch to commemorate the deeds of valor by the United States sailors. Mayor Van Wyck gave his approval of a site selection by a committee of the naval academy and he said \$1,000,000 ought to be raised for such a purpose.

According to the naval men who have taken hold of the plan the money will be raised either by popular subscription from the city of New York or by aid from the State of New York or the United States government.

UNITED STATES NAVY.

List of Vessels Purchased During
the War With Spain.

Washington, Feb. 6.—Senator Hale today submitted to the Senate a number of communications from the secretary of the navy concerning naval affairs. One of these is a list showing the names of vessels purchased for the navy during the war with Spain, together with the prices paid, and also a list of such vessels which have been sold, together with the prices received for them. AS TO SALT LANDS.

E. E. Rich Asks State Board for a
Reduction and Appraisement.

At a meeting of the State land board yesterday afternoon the petition of E. E. Rich, praying for the reduction of the appraisement of a section of school land situate in Davis county, along the shore of the lake, was considered. It is claimed that the land is a good site for salt deposits from the lake water, and Mr. Rich, it appears, would like to purchase it. The board originally appraised the property at \$9,000, but later raised it to \$15,000, and yesterday seemed reluctant to reduce the appraisement, but took the matter under advisement.

Mr. Rich has rented the land for the past fifteen years, and gathered salt from its surface, and he claims to have made improvements amounting to \$25,000, in construction of salt ponds, railroad tracks, etc., all with a view of ultimately buying the land. He protests at the action of the board in raising the appraisement, claiming that if the land in question has increased in value it has only been by reason of his improvements.
